

# Free Personal Care & Home Supplies

Here's some information about adjustments to our distribution process as we transition back to operations resembling those before the pandemic. These changes are designed to improve your overall experience with us.

## KEY CHANGES:

1. **One Order Per Household** - To keep things fair and smooth, we're asking each household to place just one order. Over the next two weeks, we will adjust to better accommodate your household size. Families with two or more members will receive 30 points.
2. **Scheduled Visits** - Book a 15-minute time slot that suits your schedule during our operating hours. Please feel free to stay as long as you like.
3. **Guest Access** - Guests are welcome to visit us twice a month on the Wednesdays of your choice. We look forward to serving you on these days.
4. **Care Center Membership** - Members are welcome to join us weekly. To become a member, engage in our employment track, life skills workshops, or one-on-one mentoring to unlock this additional support. Seniors (65 or older) are welcome to join us weekly as well.

Let's navigate these changes together. We deeply value the opportunity to serve you and empower you to thrive.
